### Ensign Announces Transformers with 277 or 240/277 Input Voltage

Ensign Corporation is proud to announce that we have increased our product offering. We have added new input/output/protection/insulation system configurations (total 1.1million parts). Below is a summary of configurations (all UL/cUL recognized, some cases VDE and CE):

- **Input voltage:** 115, 117, 120, 250, 277
- **Output voltages:**
  - 5-120 volt in one volt increments.
  - Center taps.
  - Multiple taps.
- **Frequency:**
  - 50/60Hz
  - 60Hz
  - 400Hz
- **VA (Wattage) Size:** 1VA to 40KVA.
- Wide range of **thermal protectors** (over current and/or over-temperature).
- **Insulation systems range from:**
  - Class B (130° C)
  - Class F (155° C)
  - Class H (180° C)
  - Class N (200° C)

#### Benefits of Using Ensign:

- Ease of Doing Business
- ISO 9001:2008 Registered since 1998
- Energy Efficient Transformers
- Economy with Quality
- Custom Design or Pre-Engineered
- U.S.A. and offshore production capabilities
- On Time Delivery (JIT, KanBan)

**Ensign Corporation** has been producing quality custom and pre-designed transformers since 1939. Our Quality Policy is simple, and effective:

- A) Compliance to Requirements.
- B) Continual Improvement.
- C) Personal Pride in our Work.

Feel free to take advantage of our pre-designed models, or let us customize a transformer to your particular needs. (That's our Specialty!) Either way, you've come to the right place.
